REACH
DIGITAL CIVIC OFFICE

BUSINESS MODEL CANVAS — REACH DIGITAL CIVIC OFFICE PLATFORM

Multi-Tenant Civic-Service SaaS connecting Residents, Public Offices, Jurisdictions & Elected Leaders | Flagship: FKL Connect

B2G / B2O MULTI-TENANT CIVIC SAAS

Version 1.0 | Production Architecture

01 Key Partners

- **Legislative & Executive Offices:** Federal/State lawmakers, Governors' citizen offices, LGAs & LCDAs operating tenant deployments.
- **Nigerian Postal Service (NIPOST):** Upstream 5-segment alphanumeric postcode API for address KYC and jurisdiction mapping.
- **Meta / WhatsApp Business:** Graph API v23.0 partner for webhook message ingestion & automated constituent status alerts.
- **Cloud & DB Infrastructure:** Vercel (Edge SSR deployment) & Neon (Serverless PostgreSQL, Auth & Row-Level Security).
- **Development & Grant Agencies:** NG-CARES, Lagos CARES, TETFUND, SMEDAN & partner NGOs co-delivering programmes.
- **Community Associations (CDAs):** Ward leaders, youth councils & neighbourhood watch groups driving grassroots adoption.

Ecosystem: Gov + NIPOST + Meta + Cloud

02 Key Activities

- **Platform Engineering & RLS:** Maintaining multi-tenant Next.js 16 + Neon PostgreSQL schema & security policies.
- **Service Routing & Triage:** Configuring 'Who Handles This?' rules across 12 civic categories & 8 jurisdiction tiers.
- **Tenant & Leader Onboarding:** Provisioning offices, staff queues, verified leader accounts & historical media.
- **Civic Content Verification:** Publishing programmes, opportunities, infrastructure projects & event RSVPs.

03 Key Resources

- **Multi-Tenant Codebase:** Production Next.js 16 App Router platform with 5 role-based workspaces.
- **Civic Priority Algorithm:** Weighted crowd-scoring engine (+3/+2/+1 signals) & 4 escalation tiers.
- **Jurisdiction & NIPOST Graph:** 36-State + FCT postcode parser & hierarchical parent/child boundary tree.
- **Atomic Workflow RPCs:** Transactional update_request_status() & split public/admin RLS architecture.

04 Value Propositions

- **For Residents: Zero-Confusion Help:** Submit civic issues without needing to know which government tier handles it; track live via reference_no.
- **Crowd-Powered Street Escalation:** Community Priority Feed lets neighbours upvote & flag safety hazards (+3 pts) to fast-track urgent fixes.
- **One-Stop Opportunity Access:** Discover verified scholarships, SME grants, empowerment programmes, projects & town halls.
- **For Offices: Structured Case Queue:** Replaces chaotic paper/WhatsApp petitions with NIPOST-verified requests, staff notes & atomic status logs.
- **For Leaders: Verifiable Attribution:** Transparent Organization -> Jurisdiction -> Office -> Lead/Partner Leader credits prove public service impact.
- **Privacy-Preserving Transparency:** Public feed hides submitter names while proving street-level resolution progress.

Core Promise: Needs -> Routed -> Resolved

05 Customer Relationships

- **Self-Service Resident Portal:** 24/7 digital submission, live timeline tracking & automated WhatsApp status alerts.
- **Collaborative Community Trust:** Neighbour corroboration ('Affects Me Too') & transparent resolution stages.
- **White-Glove Tenant Onboarding:** Dedicated setup of jurisdiction trees, offices, staff roles & branding.
- **Verified Executive Provisioning:** Controlled leader_account_provisioning linking verified emails to leader profiles.

06 Channels

- **Responsive Web Portal:** Mobile-first web app (/requests, /programmes, /dashboard, /office, /leader).
- **WhatsApp Cloud API (v23.0):** Direct constituent notifications & incoming webhook messaging.
- **Search, SEO & AI Discovery:** Schema.org JSON-LD, OpenGraph, dynamic sitemap.xml & /llms.txt.
- **Physical Constituency Touchpoints:** QR codes at town halls, project sites & ward liaison offices.

07 Customer Segments

- **Federal & State Legislators (B2G):** 360 Federal House of Reps, 109 Senators & 993 State Assembly offices (e.g., FKL Connect).
- **Local Governments (LGAs / LCDAs):** 774 LGAs & 57+ LCDAs managing grassroots roads, drainage, waste & primary welfare.
- **State Executive & MDAs:** Governors' citizen engagement bureaus, public works ministries & emergency agencies.
- **Civic & Development Orgs (B2O):** Donor-funded empowerment programmes (NG-CARES, TETFUND), foundations & CDAs.
- **Constituents & Residents (End Users):** Citizens reporting civic issues, tracking repairs & corroborating neighbourhood hazards.
- **Youth, SMEs & Job Seekers:** Residents applying for training, grants, scholarships & community events.

Dual-Sided: Paying Tenants + Constituents

08 Cost Structure

- **Cloud & Database Infrastructure (Fixed + Usage, ~12% of Rev):** Vercel Pro/Enterprise edge hosting, Neon Serverless PostgreSQL compute/storage, and media object storage.
- **WhatsApp & NIPOST API Consumption (Variable COGS, ~6% of Rev):** Meta WhatsApp Cloud API per-conversation utility messaging charges and NIPOST postcode lookup/verification throughput.
- **Core Engineering, Security & Product R&D (~40% of Budget):** Full-stack Next.js/PostgreSQL engineering, RLS security auditing, AI routing models, and mobile UX.
- **Field Onboarding, Content Seeding & Support (~27% of Budget):** Constituency office digitization, historical project/programme cataloging, staff training & customer success.
- **Government Relations, Compliance & Partnerships (~15% of Budget):** Public-sector procurement, NDPR/data privacy compliance, and state/legislative stakeholder demos.

09 Revenue Streams

- **Annual Multi-Tenant SaaS Subscriptions (70% of ARR):** Tiered annual licenses: Constituency/LGA Standard ($4,800/yr), Senatorial/Multi-Office Pro ($12,000/yr), State Enterprise ($35,000+/yr).
- **Onboarding, Digitization & Custom Branding Fees (15% of Rev):** One-time setup ($1,500 - $5,000) covering jurisdiction mapping, leader profile verification, media archive & staff training.
- **WhatsApp Dispatch & NIPOST KYC Volume Packs (10% of Rev):** Prepaid messaging & address-verification credit bundles for high-volume constituency town halls and mass alerts.
- **Sponsored Programme & Grant Portal Modules (5% of Rev):** Dedicated application & beneficiary tracking portals for development partners, CSR initiatives, and empowerment funds.

OPERATING MECHANICS, UNIT ECONOMICS & CIVIC IMPACT MATRIX

How REACH Creates Compounding Network Value Across Constituents, Offices, and Multi-Tier Leadership

STRATEGIC EXECUTION PLAYBOOK

THE REACH CIVIC FLYWHEEL

How Every Stakeholders' Action Strengthens the Network

1. Residents Submit & Verify

Constituents file requests with NIPOST 5-segment postcodes & apply for programmes.

->

2. Neighbours Corroborate

Community Priority Feed aggregates +3/+2/+1 hazard signals into 4 escalation tiers.

->

3. Intelligent Office Routing

Service Directory maps category + jurisdiction to the exact responsible office queue.

->

4. Atomic Staff Resolution

Office staff update statuses atomically; WhatsApp Cloud API notifies residents.

->

5. Verifiable Leader Impact

Resolved cases & credited projects build public trust, driving higher tenant renewal.

SAAS PACKAGING & UNIT ECONOMICS

Multi-Tenant Subscription Tiers & Margin Structure

Dimension / Feature	Constituency Standard	Senatorial Pro	State Enterprise
Target Buyer	House of Reps / Single LGA	**Senators / Multi-LGA Cluster**	State Govt / Ministries
Annual Subscription (ARR)	$4,800 / yr (NGN 7.5M)	**$12,000 / yr (NGN 18.5M)**	$35,000+ / yr (NGN 55M+)
One-Time Onboarding Fee	$1,500	**$3,000**	$5,000 - $15,000
Included Offices & Seats	Up to 3 Offices / 15 Staff	**Up to 12 Offices / Unlimited**	Unlimited State-Wide
Jurisdiction Hierarchy	Constituency + Wards	**Senatorial + LGAs + LCDAs**	Full 8-Level State Tree
NIPOST Postcode KYC	Standard Lookup & Format	**Full Batch + Auto-Match**	Custom GIS + NIPOST API
WhatsApp Cloud Dispatch	5,000 alerts / mo included	**25,000 alerts + Webhook**	100,000+ alerts + Bot
Leader Co-Attribution	Up to 5 Leader Profiles	**Up to 25 Leader Profiles**	Unlimited + Custom Roles
Infra Cost per Tenant / Mo	~$18 / month	**~$45 / month**	~$140 / month
Target Gross Margin	84% Gross Margin	**86% Gross Margin**	80% Gross Margin

DEFENSIBILITY & KPI SCORECARD

Why REACH Wins & Retains Tenants

1. Cross-Tier Attribution Network Effect

Because federal, state, and local leaders co-sponsor programmes and projects via content_leaders, onboarding one constituency naturally pulls overlapping state assembly and LGA offices onto REACH.

2. Hyper-Local Nigerian Civic Data Moat

Native support for Nigeria's 8-tier administrative tree (Senatorial -> Federal Constituency -> LGA -> LCDA -> Ward) combined with 5-segment NIPOST postcode parsing cannot be replicated by generic CRM tools.

3. Institutional Memory Across Election Cycles

Decoupling Organizations, Jurisdictions, and Offices from individual Leader accounts ensures service records and constituent histories persist seamlessly.
