REACH
DIGITAL CIVIC OFFICE

INVESTOR & PARTNER PITCH DECK | GOVTECH & CIVIC INFRASTRUCTURE

Transforming Physical Public Offices into Intelligent Digital Service Networks.

REACH (Residents Engagement, Access, Communication & Help) is a multi-tenant civic-service platform connecting constituents with public offices, intelligent request routing, crowd-prioritized community feeds, programmes, opportunities, and transparent leadership accountability.

FLAGSHIP LIVE
FKL Connect
Surulere Federal Constituency I

POSTCODE ENGINE
36 States + FCT
5-Segment NIPOST Verification

Meta Cloud API v23.0 Dispatch

Production URL: https://reach-eta-two.vercel.app | Built with Next.js 16, Neon PostgreSQL (RLS), NIPOST & WhatsApp Cloud API

PLATFORM ARCHITECTURE
End-to-End Civic OS

01 Public Civic Portal
Requests, Programmes, Projects, Events, Leaders

02 Community Priority Feed
Crowd signals, NIPOST badge & 4 escalation tiers

03 Resident Dashboard
Live timeline tracking, applications & alerts

04 Office & Staff Queue
Atomic status workflows & jurisdiction routing

05 Leader & Superadmin Console
Multi-tenant governance, RLS & co-attribution

Why Traditional Constituency & Public Service Delivery Breaks Down

Millions of residents struggle to access public help while leaders and offices lack structured operational visibility.

REACH
DIGITAL CIVIC OFFICE

PAIN POINT 01

The Jurisdiction Maze ('Who Handles This?')

Residents face 8+ overlapping administrative layers (Federal, State, Senatorial, Federal/State Constituency, LGA, LCDA, Ward). Citizens rarely know which office is responsible for drainage, street lighting, welfare, or documentation.

Result: Misdirected petitions, constituent frustration, and unresolved street hazards.

PAIN POINT 02

Opaque Queues & Zero Status Visibility

Physical walk-in offices, paper letters, and ad-hoc WhatsApp messages have no reference numbers, audit trails, or structured status workflows. Residents never know if their request is under review or ignored.

Result: Deep civic distrust and repetitive follow-up visits to physical offices.

PAIN POINT 03

Unverified Locations & Triage Blindness

Offices receive floodgates of unstructured complaints without verified residential addresses, postcodes, or crowd corroboration to distinguish a single-household issue from an urgent street-wide safety hazard.

Result: High-impact community emergencies get buried beneath low-priority noise.

PAIN POINT 04

Invisible Programmes & Siloed Accountability

Government grants, youth training, medical outreach, and infrastructure projects lack a unified discovery portal and transparent attribution linking Organizations, Jurisdictions, Offices, and collaborating Leaders.

Result: Low programme utilization and zero measurable record of public service.

REACH: The Resident-Centric Digital Civic Office Platform

Designed around the resident's need rather than government bureaucracy — routing every issue to the right office.

REACH
DIGITAL CIVIC OFFICE

THE REACH RESIDENT-TO-RESOLUTION WORKFLOW

1. Describe Need
Resident submits issue or selects category + NIPOST postcode

->

2. Match Service
Service Directory classifies need & detects jurisdiction

->

3. Route to Office
Assigned to responsible Federal, State, LGA or Agency office

->

4. Atomic Workflow
Staff process request via locked update_request_status() RPC

->

5. Track & Notify
Resident tracks live timeline + receives WhatsApp alerts

Civic Requests & Tracking

- **12 Service Categories:** Roads, Drainage, Lighting, Water, Waste, Education, Health, Jobs, Welfare.
- **Unique Reference ID:** Every submission generates a trackable reference_no.
- **5-Stage Status Engine:** submitted -> under_review -> in_progress -> resolved -> closed.

Community Priority Feed

- **Crowd Endorsements:** Signed-in residents upvote (+3 pts) and corroborate street impact.
- **4 Civic Hazard Signals:** Safety Risk (+3), Urgent (+2), Affects Me Too (+2), Field Visit (+1).
- **Auto-Escalation Tiers:** Community Watch -> Rising -> High Priority -> Critical Escalation.

Programmes, Projects & Hub

- **Programmes & Grants:** Open/ongoing initiatives with capacity, deadlines & applications.
- **Opportunities & Events:** Scholarships, jobs, SME training & community town hall RSVPs.
- **Project Transparency:** Planned, ongoing & completed infrastructure with beneficiary counts.

Accountability Attribution

- **4-Part Ownership Chain:** Organization -> Jurisdiction -> Responsible Office -> Leaders.
- **Lead & Partner Credits:** Explicit content_leaders links represent joint inter-tier initiatives.
- **Verified Provisioning:** Decoupled leader_account_provisioning protects executive access.

Multi-Tenant Civic Architecture & Role-Based Governance

A single codebase powers multiple organizations, hierarchical jurisdictions, offices, and strict Row-Level Security.

REACH
DIGITAL CIVIC OFFICE

MULTI-TENANT HIERARCHY

8-Level Jurisdiction Tree

Every record is scoped by organization_id and linked to parent/child administrative boundaries:

1. State
e.g., Lagos State

2. Senatorial District
e.g., Lagos Central Senatorial District

3. Federal Constituency
e.g., Surulere Federal Constituency I

4. State Constituency
e.g., Surulere State Constituency I & II

5. Local Government (LGA)
e.g., Surulere Local Government

6. Local Council (LCDA)
e.g., Itire-Ikate LCDA

7. Ward & 8. Community
Street/CDA & NIPOST Postcode Unit

5 ROLE-BASED WORKSPACES

Unified Portal & Consoles

Public Civic Portal (/)
SEO/JSON-LD/llms.txt enabled portal for requests, community feed, programmes, projects, events & leaders.

Resident Dashboard (/dashboard)
Personal request history, status timelines, notifications, event RSVPs & profile management.

Office Workspace (/office)
Assigned constituent request queue, staff notes, and atomic status transition forms.

Leader Workspace (/leader)
Provisioned executive view for credited programmes, projects, constituency metrics & service records.

Superadmin Console (/superadmin)
Full CRUD across organizations, jurisdictions, offices, staff, residents, routing, CMS & WhatsApp.

PRODUCTION STACK & SECURITY

Defense-in-Depth Stack

Next.js 16 + React 19 + TS
App Router, Server Components, Server Actions & Route Handlers.

Neon PostgreSQL + RLS
Split *_public_read and *_admin_read Row-Level Security policies.

6-Role Access Matrix
resident, staff, office_admin, org_admin, admin, superadmin.

Atomic DB Transactions
update_request_status() locks rows & writes request_updates atomically.

AI & Search Discoverability
Dynamic sitemap.xml, OpenGraph images, Schema.org JSON-LD & /llms.txt.

04 / CROWD-VERIFIED CIVIC TRIAGE

Community Priority Social Feed & Escalation Engine

Empowering neighbours to corroborate street-level issues so offices fix critical hazards first.

REACH
DIGITAL CIVIC OFFICE

WEIGHTED CIVIC PRIORITY SCORING

How Community Signals Drive Triage

When a resident shares a request on /requests/community, neighbours can endorse, react with structured hazard signals, and post street corroborations:

+3 Pts	**Support Endorsement (request_supports)**	One-click constituent endorsement backing the issue.
+3 Pts	**Safety Risk Signal (safety_risk)**	Flags an immediate public safety, flooding, or health hazard.
+2 Pts	**Urgent Intervention (urgent)**	Signals time-sensitive infrastructure or welfare breakdown.
+2 Pts	**Affects Me Too (affects_me)**	Confirms multi-household or street-wide impact.
+2 Pts	**Street Comment & Postcode Corroboration**	Inline neighbourhood update with verified NIPOST postcode.
+1 Pt	**Needs Field Visit (needs_visit)**	Requests physical on-site inspection by constituency staff.

4 AUTOMATED ESCALATION TIERS

Dynamic Queue Prioritization

TIER 1: Community Watch — 0 - 7 Priority Pts
Logged on public feed; monitored for neighbour corroboration.

TIER 2: Rising Priority — 8 - 19 Priority Pts
Multiple households affected; surfaced in office triage queue.

TIER 3: High Civic Priority — 20 - 39 Priority Pts
Widespread street/ward impact; prioritized for staff dispatch.

TIER 4: Critical Escalation — 40+ Priority Pts
Urgent community hazard; flagged for immediate leadership action.

PRIVACY-BY-DESIGN & TRUST

Anonymous Public Feed, Verified Back-Office

Submitters' full names are never exposed publicly on the Community Feed — protecting resident privacy while displaying verified 5-segment NIPOST postcode badges, jurisdiction tags, and official resolution stages.

NIPOST 5-Segment Postcode KYC & WhatsApp Cloud Engine

Pinpointing every civic request to a verified street unit while keeping residents updated on WhatsApp.

REACH
DIGITAL CIVIC OFFICE

GEOSPATIAL & ADDRESS INTELLIGENCE

NIPOST 5-Segment Alphanumeric Postcode

REACH integrates directly with the Nigerian Postal Service (NIPOST) alphanumeric postcode system across all 36 States + FCT for address verification and jurisdiction matching:

CANONICAL 5-SEGMENT FORMAT EXAMPLE

LA	-	01	-	A01	-	AA	-	01
State Lagos		LGA Surulere		District Zone A01		Area Area AA		Unit Unit 01

- **9 Live API Operations:** search, lookup, assemble, disassemble, states, lgas, districts, areas & validation.
- **Automatic Jurisdiction Match:** Maps 2-letter state prefix (LA, FC, OY, etc.) & LGA directly to tenant jurisdictions.
- **Smart Field Auto-Fill:** Residents can look up their postcode from street/area or verify an existing code in 1 click.
- **Interactive Postcode Showcase:** Dedicated /postcode verifier & batch validation tool built into the civic portal.

META WHATSAPP CLOUD API (v23.0)

Omni-Channel Constituent Engagement

Meets residents on Nigeria's most ubiquitous communication channel with tenant-scoped numbers, webhook ingestion, and queued notification dispatch:

1. Webhook Ingestion (/api/whatsapp/webhook)

Verifies hub.verify_token & receives incoming constituent WhatsApp messages per organization phone_number_id.

2. Automated Notification Queue

Status changes enqueue structured WhatsApp notifications linked to request reference_no and resident phone.

3. Batch Dispatch Worker (/api/notifications/whatsapp/dispatch)

Processes queued alerts via Meta Graph API v23.0 with delivery tracking & retry resilience.

4. Superadmin WhatsApp Console (/superadmin/whatsapp)

Monitors message logs, delivery status, tenant WhatsApp numbers, and dispatch health.

REACH
DIGITAL CIVIC OFFICE

Flagship Deployment: FKL Connect (Surulere I, Lagos)

Production multi-tier deployment demonstrating REACH across Federal, State, and Local government leadership.

DEFAULT TENANT
fkl-connect
Hon. Fuad Kayode Laguda Office

JURISDICTION TREE
Lagos -> Surulere
Federal, State, LGA & Itire-Ikate LCDA

PROFILED LEADERS
8 Elected Officials
Federal, State & Local Tiers Linked

VERIFIED MEDIA
65+ Visual Assets
Community Albums, Projects & Videos

Multi-Tier Leadership Directory

- **Federal Executive & Legislative:** Rt. Hon. Femi Gbajabiamila (Chief of Staff), Sen. Wasiu Eshilokun (Lagos Central), Hon. Fuad Kayode Laguda (Surulere I).
- **State Assembly:** Hon. Desmond Olushola Elliot (Surulere I), Hon. Mosunmola Sangodara (Surulere II).
- **Local Government & LCDA:** Hon. Sulaiman Bamidele Yusuf (Surulere LGA), Hon. Odunayo Daniel (Itire-Ikate LCDA), Hon. Lanre Okunlola.

Active Programmes & Projects

- **Education & Youth:** Eko Learners Support, EkoExcel Digital Learning, TETFUND Infrastructure, NextGen Innovation Hackathon.
- **Economic & Welfare:** Gbaja Mega Empowerment, Lagos MSMEs Exclusive Fair, Lagos CARES & NG-CARES Financing.
- **Major Infrastructure:** Lagos Red Line Rail Integration, Omi Eko Water Transport, Renewed Hope Housing, Lagos Medical Park.

Accountable Co-Attribution

- **Explicit Ownership Chain:** Every card & detail page displays Organization -> Jurisdiction -> Responsible Office -> Credited Leaders.
- **Joint Collaborations:** Supports Lead + Partner leader credits across federal, state, and local initiatives.
- **Grassroots Engagement:** Youth Sports Courts, Summer with FKL, Community Fitness Runs & Constituency Office town halls.

Massive GovTech & Constituency SaaS Market in Nigeria & Africa

Over 2,700 public offices and legislative constituencies in Nigeria alone require digital citizen engagement infrastructure.

REACH
DIGITAL CIVIC OFFICE

TAM | $180M+ Annual West African Civic & GovTech SaaS

2,700+ Nigerian Public Service Entities + ECOWAS Expansion

36 State Governments, 109 Senatorial Districts, 360 Federal Constituencies, 993 State Assembly Seats, 774 LGAs, 57+ LCDAs, and 500+ Federal/State MDAs & Development Programmes.

SAM | $42M Annual Serviceable Market (Nigeria Digital-First)

650+ High-Readiness Constituencies, Urban LGAs & State Agencies

Federal & State lawmakers, metropolitan LGAs/LCDAs, and donor-backed programmes (World Bank NG-CARES, TETFUND, SME agencies) seeking turnkey constituent portals.

SOM | $2.4M - $3.8M Target ARR (24-Month Horizon)

50 - 75 Multi-Tenant Organizations Across 6 Anchor States

Expanding from Surulere/Lagos flagship into Lagos Central, FCT Abuja, Ogun, Oyo, Rivers, and Kano legislative & local government clusters.

NIGERIA PUBLIC OFFICE FOOTPRINT

Target Customer Segments

Federal Constituencies	House of Reps members (like FKL Connect)	360 Offices
Senatorial Districts	3 per State + 1 FCT Senatorial Office	109 Offices
State Assembly Seats	State constituency lawmakers across 36 states	993 Offices
Local Govts (LGAs & LCDAs)	774 Constitutional LGAs + Lagos/State LCDAs	831+ Councils
State Ministries & Agencies	Public works, drainage, health, SME & youth	400+ MDAs
Development & Civic Orgs	NG-CARES, TETFUND, foundations & CDAs	250+ Programmes

Multi-Tenant B2G / B2O SaaS Licensing & Revenue Model

Predictable annual subscriptions paired with rapid deployment, NIPOST KYC packs, and WhatsApp volume tiers.

REACH
DIGITAL CIVIC OFFICE

CONSTITUENCY / LGA

Annual SaaS License

$4,800 / yr

or NGN 7.5M / year per tenant

- 1 Organization + up to 3 Offices
- Up to 15 Staff & Admin accounts
- Public Civic Portal & Request Engine
- Community Priority Social Feed
- Programmes, Projects & Events CMS
- Standard Email & In-App Notifications

RECOMMENDED FLAGSHIP TIER

SENATORIAL / MULTI-OFFICE PRO

$12,000 / yr

or NGN 18.5M / year (Most Popular)

- Up to 12 Offices across LGAs/LCDAs
- Unlimited Staff & Office Admin seats
- Full NIPOST 5-Segment Postcode KYC
- WhatsApp Cloud API Auto-Dispatch
- Multi-Leader Collaboration & Provisioning
- Custom Domain & Priority Support

STATE / MINISTRY ENTERPRISE

Annual SaaS License

$35,000+ / yr

or NGN 55M+ / year custom SLA

- State-wide 8-tier Jurisdiction Tree
- Unlimited Agencies, Offices & Leaders
- Automated 'Who Handles This?' Router
- Dedicated Neon DB Branch & Custom RLS
- Executive Analytics & CSV/API Exports
- Field Staff Training & Data Migration

Implementation & Digitization

$1,500 - $5,000 one-time onboarding, historical project/programme seeding & staff training.

Usage Add-On Packs

High-volume WhatsApp utility conversation bundles + batch NIPOST address KYC credits.

82%+ SaaS Gross Margin

Multi-tenant serverless architecture (Vercel + Neon PostgreSQL) keeps marginal tenant cost <$25/mo.

REACH
DIGITAL CIVIC OFFICE

From Flagship Constituency Portal to the National REACH Network

Executing a disciplined 3-phase rollout from single-tenant excellence to interconnected multi-jurisdiction governance.

PHASE 1 | COMPLETED & LIVE

Foundation & FKL Connect Flagship

- Multi-tenant PostgreSQL schema & hardened RLS policies
- Public Civic Portal, SEO, JSON-LD & /llms.txt
- Civic Requests with atomic update_request_status() RPC
- Community Priority Social Feed (4 signals + 4 escalation tiers)
- NIPOST 5-segment postcode lookup & verification engine
- Superadmin CMS, Resident Management & Event CSV export
- Leader Account Provisioning & Multi-Leader Attribution

PHASE 2 | NEXT 6 MONTHS

Intelligent Operations & Two-Way Bot

- Full 'Who Handles This?' automated routing rules engine
- Complete Office Staff workspace with SLA timers & assignment
- Conversational 2-way WhatsApp bot (submit & track via chat)
- Programme application eligibility rules & review workflow
- Saved opportunities & automated deadline reminders
- Executive analytics dashboard (resolution velocity & ward heatmaps)
- Onboard 15+ additional constituency & LGA tenants

PHASE 3 | 12 - 24 MONTHS

The Interconnected REACH Network

- Cross-jurisdiction request handoffs (Federal <-> State <-> LGA)
- Interactive GIS project tracker with milestone photo proof
- SMS & USSD offline bridge for non-smartphone constituents
- Open Civic Impact API for development partners & donors
- AI-assisted issue deduplication & spatial cluster detection
- Scale to 60+ organizations across Nigeria & West Africa
